

DigitalFactory | **OKI™ TT Edition**

Superior color, simplified production workflow for your OKI™ printer

The color management, production workflow software everyone's been waiting for. Unmatched color quality for CMY/white toner printers using RIP software specifically designed for OKI™. Printing color plus white on transfer media has never been easier or more visually impressive.

Advanced color management and print quality

OUTSTANDING RICH, VIBRANT, COLOR-ACCURATE PRINTING

Pre-configured "No Ink" production queues included for fabric printing. Makes better, softer "feel" of graphics on the garment. Improves color fastness without an impact on quality of the printed image. Also provides exceptional print cost savings with optimized toner usage

Optimized screening. Precision printing provides the sharpest image details

Factory-created color profiles included for an assortment of transfer media and substrates. Print vivid colors on a variety of substrates both textile and non-textile

Efficient and intuitive production workflow tools

Completely visual job management display including access to multiple queues using an easy access tab system.

Jobs can be added quickly and easily to queues; "send-to" directly from widely-used design applications, drag and drop, or import

Optimized RIP and print speeds

Most file types are supported, including complete .pdf workflow support.

Jobs	Status	Print Mode
Black Shirts 1200x1200	pending	Black Shirts 1200x1200
Color Shirts 1200 x 1200	pending	Black Shirts 1200x1200

Sheet: 1 - 10x12 [The_Brain.jpg]
Size: [10.00 in x 10.00 in]
Layout: 1
Ink Passes: x1
Print Direction: Right to Left

Digital Factory OKI TT Edition vs. other existing software options

**INCREASE PRODUCTION
EFFICIENCY, DECREASE CHANCE OF
PRODUCTION ERRORS.**

Digital Factory OKI TT Edition includes automated, preset queues. Other products require that each and every job be setup and configured separately which increases production set up time and also leads to potential errors that waste time and materials. Pre-set queues ensure that proper settings are maintained for all jobs.

MULTI LANGUAGE SUPPORT.

All major languages supported.

**INTERACTIVE GRAPHIC
LAYOUT TOOLS.**

Scale, position designs on print area directly within the RIP. Not available in many other color management RIP software or driver-based printing solutions.

MORE TRANSFER MEDIA OPTIONS.

Don't be tied into limited transfer paper selections.

Print the most vibrant colors on...

T-shirts (white, colored, and black) • Mugs
Coasters • Ceramic tiles • cups • bag tags • sports bottles
dishware • promotional items • wood • glass • aluminum
mouse pads • custom packaging • beer cozies • as well as
hard surfaces and specialty substrates of virtually any type

Digital Factory OKI™ TT Edition Feature Highlights

GENERAL RIP FEATURES

- Windows™ 10, 8 and 7 support (32 and 64 bit)
- Optimized RIP processing speeds
- Start to finish .pdf workflow support
- Send jobs directly to queues from design applications (PhotoShop, Corel, Illustrator)
- Rip once, print many
- Rip and print on the fly

CMY+ WHITE TONER FEATURES

- Preset color profiles for white, black, and colored fabrics and other substrates
- Templates support for exact positioning of graphics
- "KnockMeBlackOut", black and grey color removal
- "KnockMeColorOut", white and other color removal
- Transparency Opacity
- Send job with underbase directly from design applications
- Automatic trapping in queues
- High Speed printmodes with no quality reduction

COLOR MANAGEMENT TOOLS

- High fidelity, ICC compliant color management engine (ColorLogic)
- Simple ink volume controls
- Complete manual color curve controls by image detail (shadows, mid-tones, highlights)
- Advanced color correction tools interface
- Custom halftone settings

COLOR MANAGEMENT TOOLS (CONTINUED)

- Separation curve adjustments
- Match Pantone colors with Pantone color matching tables

PRE-PRODUCTION TOOLS

- Visual print preview
- Raw data preview
- Multi-copy with spacing controls (In-Queue feature!)
- Cropping controls of image and job (In-Queue feature!)
- Rotation controls of image and job (In-Queue feature!)
- Mirror, invert image and job (In-Queue feature!)
- Scale image and job to any size (In-Queue feature!)
- Soft proofing

JOB MANAGEMENT AND SCHEDULING TOOLS

- Unique, single window visual interface, one central easy to manage hub for all jobs
- Easy to use queue set-up wizard. Set up production queues quickly and easily
- Auto-scheduling or manual scheduling of jobs
- On-the-fly job prioritization using simple drag and drop
- Job archiving, history, print status and job log
- Job notes
- Job costing
- Hot folder support
- Gmail support. Send jobs directly to queues using mobile devices via Gmail

CADLINK ALSO PROVIDES SOFTWARE SOLUTIONS FOR THE FOLLOWING MARKETS:

DIGITAL PRINTING

RIP software, providing high fidelity color reproduction for virtually all wide format digital printers available today.

DIRECT TO GARMENT

Complete direct to garment production, color management software.

ENGRAVING

Laser and rotary engraving software.

SCREEN PRINTING

Inkjet film positive RIP software for screen printers.

CNC MACHINING

CNC machining software for 2D and 3D applications.

CUSTOM SOFTWARE SOLUTIONS

CADlink provides custom software development services to turn-key solutions providers worldwide.

SUPPORTED PRINTERS:

NORTH AMERICA

OKI C711WT - Letter
OKI C920WT - 11x17

EUROPE

OKI Pro7411WT - A4
OKI Pro9420WT - A3

COMPATIBLE WITH:

SYSTEM REQUIREMENTS:

	MINIMUM	RECOMMENDED
CPU	Dual Core (2.0 Ghz or higher)	Triple Core (2.0 Ghz or higher)
HDD	500 GB	750+ GB
RAM	2 GB	4GB
